

Primas COVID-19 Vaccine Scheduling System

Primas Group's New **ScheduleNOW** COVID-19 Vaccine Scheduling System, the web-based self-service scheduling tool that schedules BOTH of the required vaccination appointments within the mandatory time parameters. This "made-for-Covid-19-vaccination" software package provides on-site verification and ad-hoc scheduling management complete with follow-up reminders via email, SMS or phone call. Appointments can be rescheduled easily or canceled by the patient through various multi-media channels without taking the valuable time of administration site staff.

ScheduleNOW can be implemented as a stand-alone package in just one day upon completion of site configurations, OR in conjunction with external UC and contact center systems – including the Primas ground-breaking Primas CX Suite of Contact Center applications. Developed for one of the initial 150 COVID-19 vaccine deployment facilities in the USA, this flexible solution operates on premise or in the cloud. **ScheduleNOW** also supports multiple vaccination brands in multiple locations all with one system, as well as offering data integration to HL7 and PCI compliance.

PRIMAS

Primas Medicine Employee Vaccination Scheduling

- Schedule both COVID-19 vaccine doses at the site closest to your primary work location.
- You will be given scheduling options for your second dose based on the date you select for your first dose to ensure you receive the vaccine in the appropriate clinical window.
- Schedule your vaccination prior to your day off.
- Work with your supervisor and team to space out vaccine scheduling to avoid entire units being vaccinated at the same time.
- Plan to be present at your appointment for at least 30 minutes to allow for a 15 minute observation period following vaccination. Refrain from scheduling during your shift unless you have the appropriate window of time.

Select location:

Step 1: Click on an available slot to make an appointment for the first dose

Manage SMS provider and templates

Primas Medicine

Office:

⚠ Be VERY CAREFUL with these settings, as changes may cause SMS notification to malfunction.

The following information must be exactly as registered with SMS provider.

SMS configuration

Service Provider:
Communication service provider

Office:
The office will use the authorization you enter below.

Username:
RingCentral phone number. System will use this number to call or send text messages.

Extension:
Optional.

Password:
RingCentral password. Leave blank if no change.

Online appointment: Yes No
Send SMS confirmation when patient makes a new appointment online.

SMS Template:
Template for appointment confirmation via SMS for appointment online. Recommended 128 characters. The following smart fields can be used: {office_name}, {office_location}, {office_phone}, {patient_name}, {appt_date}, {appt_time}, {appt_date2}, {appt_time2}.

Appointment reminder: Yes No
Auto send SMS reminders for patients scheduled that day.

SMS Template:
Template for appointment reminder SMS. Recommended 128 characters. The following smart fields can be used: {office_name}, {office_location}, {office_phone}, {patient_name}, {appt_date}, {appt_time}.

Appointment auto reply:
Template for appointment confirmation via SMS when the patient replied to the auto appointment reminder. Recommended 128 characters. The following smart fields can be used: {office_name}, {office_location}, {office_phone}, {patient_name}, {appt_date}, {appt_time}.

Recall: Yes No
