

How to manage Static Content List Configuration

Step-by-step guide

- Go to Linkscope Web application and if you're not already signed in, select **Sign in**.
- From the Linkscope Web application, you click to **Configuration ? Static Content List** at the menu.

ADD A STATIC CONTENT LIST

1. Click  button, the **Add** popup is displayed.
2. From the **Add** popup, you enter **System Name**, **Title**, **Html Content** and select **Page**. Then click  button.

Add

System Name: Primas

Page: Home > Configuration > Screen Pop > Custom DLL

Title: Primas

HTML Content: This is an example

Update Cancel

If the system shows this message, you created a successfully Static Content List.

EDIT A STATIC CONTENT LIST

1. On the **Static Content List** table, select any row you want to edit.

Item ID	System Name	Title	Page
18	Primas	Primas	/LinkScopeWeb/Configuration/FQIVRPort

1 - 1 of 1 items

2. Click  button on that row. The **Edit** popup is displayed.

3. Form **Edit** popup, you modify **System Name**, **Title**, **HTML Content**, and select **Page**. Then click the  button.

Edit
