

How to manage System at General Configuration

In this System screen, you can configure Common, Jobs, Features, Diagnostic & Arlet, SMTP Server and AMQP.

Step-by-step guide

1. Go to Linkscope Web application and if you're not already signed in, select **Sign in**.
2. From the Linkscope Web application, you click to **Configuration ? General ? System** at the menu.

Common Configuration

Navigate to the **Common** tab, enter your information into the fields. Then click **Save Configuration** button.
