

How to manage Country Code at General Configuration

Step-by-step guide

- Go to Linkscope Web application and if you're not already signed in, select **Sign in**.
- From the Linkscope Web application, you click to **Configuration ? General ? Country Code** at the menu.

Manage Country Code

1. Form the **Country Code List** table, select any row you want to edit.

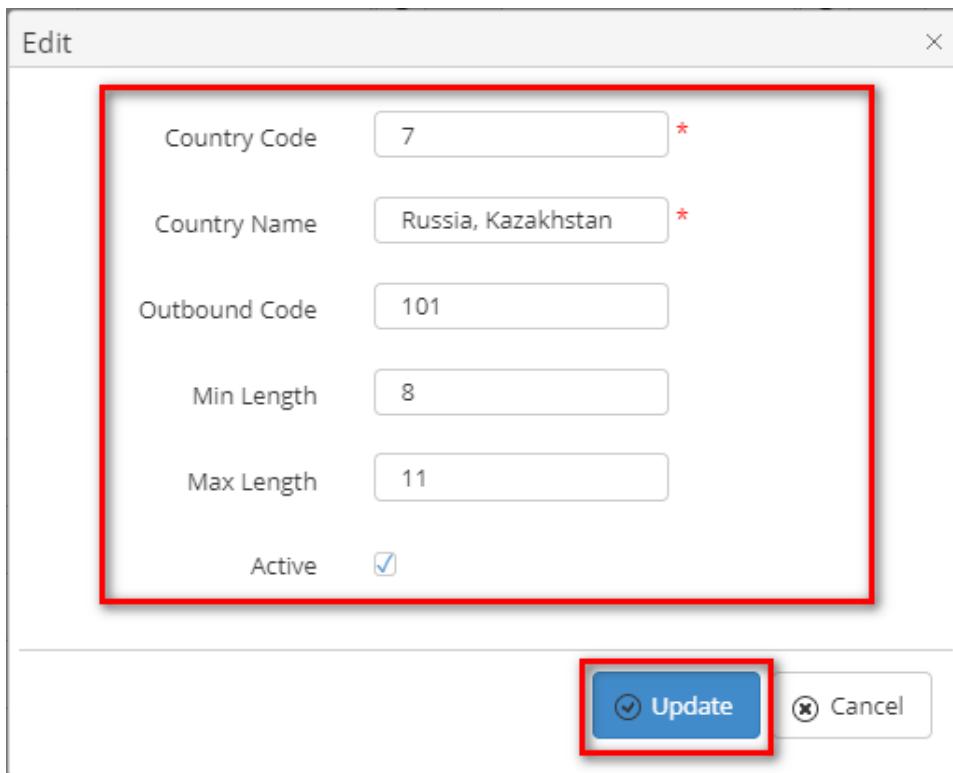

Country Code	Country Name	Outbound Code	Min Length	Max Length	Active
1	Canada, United States		8	11	<input checked="" type="checkbox"/> <input type="checkbox"/>
7	Russia, Kazakhstan	101	8	11	<input checked="" type="checkbox"/> <input type="checkbox"/>

2. Click  button on that row. The **Edit** popup is displayed.

3. Form Edit popup, you modify **Country Code**, **Country Name**, **Outbound Code**, **Min Length**, **Max Length** and select **Active**. Then click the

 **Update**

button.

The screenshot shows an 'Edit' dialog box with the following fields:

- Country Code: 7
- Country Name: Russia, Kazakhstan
- Outbound Code: 101
- Min Length: 8
- Max Length: 11
- Active:

At the bottom right of the dialog are two buttons: a blue 'Update' button with a checkmark icon and a white 'Cancel' button with a cancel icon.

Search A Country Code

From the **Country Code List** table. You can search for a Country Code by searching the **Country Code**, **Country Name**, **Outbound Code**, **Min Length**, **Max Length** or **Active** field.

Country Code	Country Name	Outbound Code	Min Length	Max Length	Active
43	Austria		8	11	<input checked="" type="checkbox"/> 
61	Australia, Christmas Island, Cocos Islands		8	11	<input checked="" type="checkbox"/>
