 - View contact report
- For the agent role.
 - Login web application
 - The agent dashboard
 - The outbound calls.
 - The states.Logout.
 - The hidden components.
 - The detailed queue info.
 - The detailed agent info.
 - The agent activity report.
 - The logout the ACD agent feature.

For Supervisor or Manager role.

Configure DNIS (Facility)

This is the first VDN that receives the inbound call that helps us to identify the Caller ID (ANI).

The steps add new DNIS as below:

- Menu navigation: Configuration ? Screen Pop? DNIS
- Click Add button
- Enter the required information and click **Update** button

Ref: Add new DNIS

Configure Skill Extension

This is the Hunt Group Extension (not Skill ID).

The steps add new Skill extension as below:

- Menu navigation: Configuration ? Screen Pop? Skill Extension
- Click Add Skill Extension button
- Enter the required information. Make sure:
 - Hunt Type is "Hunt Skill"
 - Registered checkbox is checked
- Click **Update** button

Ref: Add new Skill Extension

Configure Agent Extension

All agent extensions belong to the FreedomQ Hunt Group need to be added into the system for monitoring.

The steps to add new Agent Extension as below:

- Navigate to menu Configuration ? Screen Pop? Agent Extension
- Click Add Agent Extension button
- Enter the required information
 - Make sure the Registered, Allow Remote Login, Enable WebRTC checkbox is checked
- Click **Update** button

Re: Add new Agent Extension

Configure Agent Login ID

The steps add new Agent ID as below:

Navigate to menu Configuration ? Screen Pop? Agent

- Click Add Agent button
- Enter the required information
 - Make sure the correct Skills extension of the Agent is selected from the Agent Skills box. This helps the system determine the agent skills to check the agent available from a Skill.
- Click **Update** button

Ref: Add new Agent

Configure Notifier User

A Notifier user is needed for an agent to receive the screen pop.

The steps add new Notifier as below:

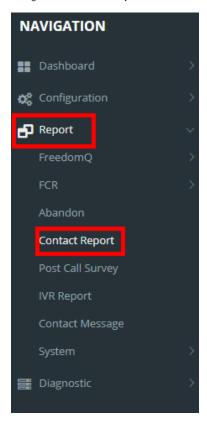

- Navigate to menu Configuration ? Screen Pop? Notifier User
- Click Add User button
- Enter the required information
- Click **Update** button

Ref: Add new Notifier User

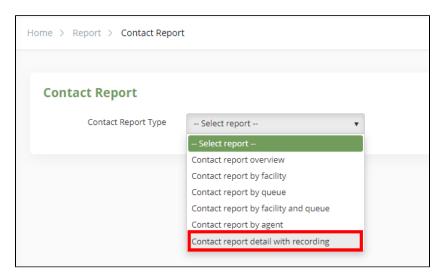

View contact report

The view contact report can view the call detail and hear the conversation record between the agent and the customer.

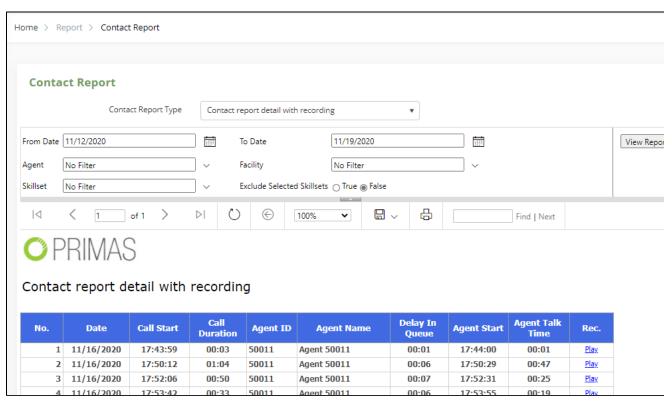

Navigate to the menu: Report ? Contact Report

Chose contact report type: Contact report detail with recoding

This is the contact report

Search

• Date: Search for day

• Agent: Search for agent ID

• Skillset: Search for skillset(It is VDN)

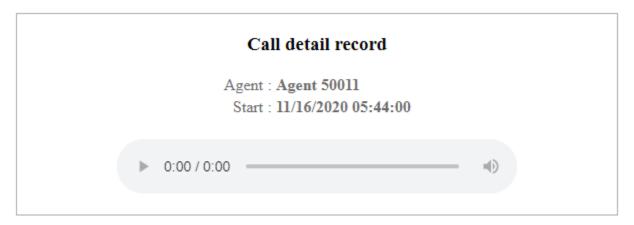

- Facility: Search for facility
- Exclude Selected Skillsets
