

Auto update new version of Custom DLL

When agents sign in, Notifier checks if there is a new Custom DLL available on the Linkscope server. If yes, Notifier displays notification message, auto downloads the Custom DLL and import to Notifier.

Step-by-step guide

When the Linkscope server has a new Custom DLL:

1. The notification message is displayed at agents's desktop

2. Click **OK**. Notifier will auto downloads and imports the new Custom DLL.
