

# How to manage System at General Configuration

In this System screen, you can configure Common, Jobs, Features, Diagnostic & Arlet, SMTP Server and AMQP.

## Step-by-step guide

1. Go to Linkscope Web application and if you're not already signed in, select **Sign in**.
2. From the Linkscope Web application, you click to **Configuration ? General ? System** at the menu.

## Common Configuration

Navigate to the **Common** tab, enter your information into the fields. Then click **Save Configuration** button.

Common    Jobs    Features    Diagnostic & Alert    SMTP Server    AMQP    License Info    Contact info

Date Format	YYYY/MM/DD
Culture Information	English
Working Hour Start	00:00
Working Hour End	23:59
Web Notifier Min Version	exc: 1.1.1.1
Web App URL	https://labvn68.primas.net:7443/LinkScopeWeb
Reporting Services Host	http://192.168.1.68/ReportServer *
LinkScope IVR URL	http://192.168.1.111/place_call.php
